

STUDIO HEALTH & SAFETY PROTOCOLS

JANSEN ART CENTER – PHASE 2, SPRING 2021

Our goal at the Jansen Art Center is to make all of our staff and students feel safe and comfortable as we navigate this ongoing situation. Below are our enhanced COVID-19 health and safety protocols, relating to studios in phase 2. Our protocols are in accordance with indoor facility mandates outlined by Washington State as well as federal and state [workplace requirements](#). The social mandates pertaining to classroom settings currently allow up to 25% capacity, including an instructor, per studio space. We are staying up to date on these mandates, and we will update our protocols to address any changes. All participants will be asked to sign a COVID-19 specific waiver before participating in any programs (open studio, classes, or workshops).

What this Means for Participants and Students

- Programs will have a maximum capacity of 25% per studio.
- Wearing a mask at all times will be required.

Foyer and Common Spaces

- Our Café services will not be available until further notice.
- All foyer and Café areas are closed for “waiting”.

Drop-Off and Arrival

- Students will enter directly into their assigned studios for class from a studio specific outside entrance.
- Each studio has its own entrance and exit protocol.
- Before & after classes, students must remain socially distanced.

Safety, Sanitization & Ventilation

- All studio floors, surfaces and any used equipment will be disinfected between programs.
- Bathrooms, foyer surfaces, door pulls/handles, handrails, and any other common spaces or frequently touched surfaces will be cleaned and sanitized regularly.
- There won't be access to the water fountain (please bring your own water bottle to class).
- Safety is our number one priority and will supersede all other rules.

Students, Staff or other Patrons will be Expected to Stay Home if:

- You have had a fever within 24 hours or any other [symptoms of Covid-19](#).
- You have knowledge of a possible exposure to anyone who has been tested positive with Covid-19. If you are considered a close contact of someone who is suspected to have COVID and you are required to quarantine, according to local health department guidelines.
- You are suspected to have COVID or have been diagnosed with Covid-19 and have not finished your quarantine according to local health department guidelines
